Amendment to the Claims:

The listing of claims will replace all prior versions, and listings of claims in the application:

Listing of Claims:

1. (Original) A multimedia content delivery system, comprising:

a content provider having a plurality of multimedia files therein;

a first integrated circuit card interface for receipt of a host integrated circuit card containing first authorization information;

a second integrated circuit card interface for receipt of a user integrated circuit card containing second authorization information;

an input device for selecting a multimedia file from the plurality of multimedia files;

an output device for providing the content of a selected multimedia file;

a control unit responsive to insertion into said second integrated circuit card interface of a user interface card containing second authorization information compatible with first authorization information contained in a host integrated circuit card inserted in said first integrated circuit card interface, for actuating said output device to provide the content of a multimedia file selected by said input device.

2. (Original) A multimedia content delivery system, as claimed in claim 1, further comprising a multimedia terminal having said content provider, said first integrated circuit card interface, and said control unit therein enclosed therein.

- 3. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said output device comprises an audio output device.
- 4. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said output device comprises a video output device.
- 5. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said output device comprises a communication link permitting downloading of the selected multimedia file in electronic form.
- 6. (Original) A multimedia content delivery system, as claimed in claim 5, wherein said communication link is a wireless communication link.
- 7. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said content provider, said input device, said output device, and said control unit comprise a laptop computer.
- 8. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said content provider, said input device, said output device, and said control unit comprise a wireless personal terminal.
- 9. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said content provider comprises a server.

- 10. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said content provider further comprises a mainframe computer coupled to said server.
- 11. (Original) A multimedia content delivery system, as claimed in claim 1, further comprising a server connected to said content provider.
- 12. (Original) A multimedia content delivery system, as claimed in claim 1, further comprising a mainframe computer connected to said server.
- 13. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said multimedia files comprise audio media.
- 14. (Original) A multimedia content delivery system, as claimed in claim 1, wherein said multimedia files comprise video media.
- 15. (Original) A multimedia content delivery system, as claimed in claim 14, wherein said video media comprises text.
- 16. (Original) A multimedia content delivery system, as claimed in claim 15, wherein said text comprises electronic books.
- 17. (Original) A multimedia content delivery system, as claimed in claim 15, wherein said text comprises newspapers.

- 18. (Original) A multimedia content delivery system, as claimed in claim 14, wherein said video media comprises games.
- 19. (Original) A process for providing multimedia content, comprising the steps of:
 - (a) storing a multimedia file, having multimedia content, in a storage unit;
 - (b) associating first authorization information with the multimedia file;
- (c) receiving a user integrated circuit card containing second authorization information compatible with the first authorization information;
- (d) in response to step (c), providing the content of the multimedia file to an output device.
- 20. (Original) A process as claimed in claim 19, wherein step (b) comprises receiving a host integrated circuit card containing the first authorization information.
- 21. (Original) A process as claimed in claim 19, wherein step (d) comprises providing the content of the multimedia file to an audio output device.
- 22. (Original) A process as claimed in claim 19, wherein step (d) comprises providing the content of the multimedia file to a video output device.
- 23. (Original) A process as claimed in claim 19, wherein step (d) comprises providing the content of the multimedia file in electronic form to an output link.

- 24. (Original) A process for providing multimedia content, comprising the steps of:
- (a) storing a plurality of multimedia files, each having multimedia content, in a storage unit;
 - (b) associating first authorization information with each of the multimedia files;
- (c) receiving a user integrated circuit card containing second authorization information compatible with the first authorization information of at least one of the multimedia files;
- (d) in response to step (c), providing the content of the at least one multimedia file to an output device.
- 25. (Original) A process as claimed in claim 24, wherein step (b) comprises receiving a host integrated circuit card containing the first authorization information.
- 26. (Original) A process as claimed in claim 24, wherein step (d) comprises providing the content of the at least one multimedia file to an audio output device.
- 27. (Original) A process as claimed in claim 24, wherein step (d) comprises providing the content of the at least one multimedia file to a video output device.
- 28. (Original) A process as claimed in claim 24, wherein step (d) comprises providing the content of the at least one multimedia file in electronic form to an output link.
